Migration

Refugees and Internally Displaced Persons

Terminology

As migration can be such a complex and emotive issue, it's important to get some of the terms right. Use the web link below to briefly say what each of the following are (and, importantly, how they are different). Write the answers in Word document (or similar) under the heading at the top of this page:

Asylum seeker, refugee

https://www.redcross.org.uk/about-us/what-we-do/how-we-support-refugees/find-out-about-refugees

Watch this short video to help you answer the questions (you'll need headphones) – write the answers in the same document using full sentences:

https://www.unhcr.org/internally-displaced-people.html

1. What is meant by an '**internally displaced person**' (**IDP**)?
2. Why might people become one?
3. Why is it more difficult to help IDPs than refugees?

Global refugee patterns

Use the data in the Refugee data Excel workbook to complete as many of these activities as you can, writing your answers as full sentences:

http://www.bws-school.org.uk/Curriculum-Exams/Geography/files/?dir=01%20Lower%20School/Yr7/Population

1. Use Table 1 to draw a pie chart. Give it a title and a key. Paste it into your document and write two sentences to summarise what the data shows about where refugees are in the world.

2. Complete Tables 2 and 3 by calculating the number of refugees as a % of each country's population. In each case, which country has the highest %?

3. Use Table 4 to draw one bar chart with two bars for each country: one for refugees and one for IDPs. Give it a title and a key, and make sure the axes have labels. Paste it into your document and write two sentences to compare the two sets of data.

4. Use Table 5 to draw an appropriate graph/chart. Give it a title and labelled axes. Paste it into your document and write two sentences to summarise what the data shows about the change in numbers of refugees crossing the Mediterranean.

5. Use Table 6 to draw an appropriate graph/chart. Give it a title and labelled axes/key as appropriate. Paste it into your document and write two sentences to summarise what the data shows about the make up of refugees crossing the Mediterranean.
