

Neil Stansfield

Dstl

'National Security through Technology'

Neil has worked at the Home Office and Ministry of Defense filling a range of defence and security roles, mainly involving science and technology or strategy and policy. Areas of work have included leading maritime defence research, leading large parts of UK CB research programme, ballistic missile defence, and arms control (including supporting the UN).

Neil will outline how different technologies are used in National Security

Thursday 25th September 2014

4-5pm in Science at Bishop Wordsworth's
School
