Head Master: Dr S D Smallwood BSc (Hons) PhD NPQH

11 January 2016

Dear Parents/Guardians

Biology Olympiad

The British Biology Olympiad will run again in January 2016 forming the first part of the National Biology Olympiad competition for the best young Biologists in the country. The questions posed often stimulate much debate on, and enthusiasm for Biology. Tackling the paper also provides a good opportunity to develop some of the skills required for study at university and beyond. We encourage our year 13 biologists to take part and have had great success in previous years, and this year we are offering our year 12 biologists the opportunity to enter the competition. The questions will test the whole A level course including topics they will not have studied yet and is deliberately demanding, but any award at this stage of their studies would enhance their UCAS application and prove extremely helpful when applying for competitive courses. A willingness to have a go demonstrates a continued commitment to their studies and a desire to stretch and challenge themselves beyond the confines of their current study.

Further information outlining the syllabus can be found on the school website. Relevant information about the syllabus, including some past papers with answers can be found in the biology curriculum area within the files tab for year 12. I would highly recommend looking at these before tackling the real papers.

The papers will be taken online during school time between 20 - 28 January. If you wish your son to take part we ask that you make a contribution of £5 towards the entry fees. No student will be barred from the competition on account of non-payment due to circumstances. Please make your payment by **Monday 18 January**.

PAYMENT:

Online: Via www.scopay.com

If you need a link code please email amh@bws.wilts.sch.uk

Yours sincerely

Shirley Madzarevic
Head of Biology
