Dear Richard,

Further to your tour to Hong Kong and Australia this summer, this email is to provide you with some information with regards to vaccinations.

In many areas most vaccinations are not currently required but it is advised all travellers are up to date with their tetanus and polio. Hepatitis B is always recommended for anyone playing contact sports.

We would always advise that all travellers see their GP's at least 6 weeks prior to departure as they can advise further.

For more information on vaccinations for your tour destinations, please see the below links where this can be found.
