Head Master: Dr S D Smallwood BSc (Hons) PhD NPQH

12 November 2018

Dear Parents/Guardians

I am writing to let you know about some additional lunchtime Chemistry sessions that we will be offering which we think will be of benefit to your son.

The sessions will focus predominantly on work covered in Years 9 and 10 and will involve a recap of the work and study of past paper questions. The intention is that, after receiving this additional support, your son will have an improved confidence and a clearer understanding of how he can continue to work independently in preparing for his Chemistry GCSE.

The sessions will begin after the Physics programme of additional sessions, again on Mondays at 12.00pm.

In the meantime, if there is anything that you wish to discuss then please do not hesitate to contact me.

Date	Focus area of Session	Preparatory work
19/11	Bonding and Structure	For each session, it is essential that boys have looked through the year 11 GCSE Chemistry checklist and have highlighted areas which require focus. In addition, they will have used their textbook and exercise book to look over the topic.
10/12	Rates of Reaction	
17/12	Organic Chemistry	
14/1	Metals	
21/1	Atomic Structure and Periodic Table	

Yours sincerely

Dr Emma Baker  
Director of Science
