A Level Mathematics Academic Support

Dear Parent/Carer,

Your son has been identified as a pupil who would benefit from some extra academic support with his A Level mathematical studies. This has been based on his performance during Year 12, including his End of Year exam result in which he achieved **below a D grade**.

A programme of extra support will commence next week for your son which will include the following:

1. Your son will be required to attend a Thursday lunchtime session in which Mrs Barrett will go through topic based revision of the Year 12 maths topics.
2. Each of these sessions will conclude with a list of questions being set for completion by the following Thursday lunchtime session.
3. Two additional supervised study double lessons have been added to your son's timetable to provide him with dedicated time in which he can complete the additional work that has been set.

We hope that this structured programme will prove to be of great benefit your son, both building his confidence in the subject and ensuring that he can start Year 13 with a firmer foundation of the Year 12 material.

We hope that you and your son will fully support us with this programme, and that we will all see the benefits as he continues with his A Level mathematical studies.

Please feel free to email me if you have any concerns or questions about this extra support.

Yours sincerely

Mrs Jackie Barrett
Head of Mathematics
