Dear Parents/Guardians

We have reviewed the results of the recent summer exam and your son's score in Biology has given us some cause for concern as it was below expectations. We are providing some additional resources to help him go back over the content and gain more experience in answering questions. It is important that he consolidates his work before the start of the next academic year and I would also recommend that he makes use of the independent study guides on the BWS website which are located in the Curriculum Files using this link <W:\Y9Files\Biology Files\Independent Study Guides>. He should also refer to his text book and revision guide, and seek advice from his teacher if he needs more clarification. Ideally he should try to work through the resources over the summer and bring them completed at the beginning of the autumn term where any problems can be discussed and advice offered.

It is not intended to over burden your son with a large extra workload and the resources should not take too long to complete, and we would appreciate any support and encouragement you can offer him. In the meantime, if there is anything that you wish to discuss then please do not hesitate to contact me.

Yours sincerely

Shirley Madzarevic
Head of Biology
